The **Ron Lloyd Memorial Car and Bike Run** is in honour of Mr Ron Lloyd who was not only a stalwart of Rural Shows, but was a great Car and Motorcycle enthusiast. Ron had a great love for Bell and District.

The run is a **staged time trial**, where participants are required to nominate the time it will take them to complete each stage of the run.

NOTE: This year, there is a **change to the rules** and **for each stage there will be a “judge’s time.”** This time will not be disclosed to participants. **Participants who take longer than the “judge’s time” will incur a time penalty of 1 point per second above the “judge’s time”.** Participants who have a time less than the “judge’s time” do not incur any penalties.

There will be **three (3) stages**. Maps of the course will be made available on the morning of the event. Each participant must have their **nominated times** for each stage presented to the stewards no later than **30 minutes before the commencement** of the run.

For each stage there will be a number of **questions or activities** the participants will be required to complete. Incorrect or unanswered questions incur a **time penalty**. The questions and activities will be presented to each participant at the **commencement of each stage**. At the completion of the stage the **answer sheet for the questions** is to be given to the steward **prior to commencement of the next stage**. There are no activities for motorcycles.

- **Each car must have a minimum of two (2) people. A driver and a navigator.**
- **One or two persons per motor-bike, (pillion passenger or side-car is acceptable)**
- **All vehicles must be roadworthy and have current registration.**
- **Each driver/rider must have a current driver’s licence**
- **All road rules must be complied with during the event.**

LINE HONOURS:

This year there is a “Line Honours” event where for each class the participant who completes the run (all three stages) in the shortest time will be declared the winner.

TEAM EVENT: (Not included in the Line Honours event)

- A team consists of **five (5) cars**
- The team must nominate four (4) cars for each stage at the conclusion of the event. (One car is dropped out for each stage)

- The points for the four (4) nominated cars will be tallied for each stage to give the overall number of points.

- If more than one team has the same number of points, then the team with the lowest total nominated time will be declared the winner.

CAR RALLY POKER:

At the commencement of **each stage** the participant will be given an envelope with **a playing card**. At the **finish line** each participant will receive **two envelopes each with one playing card**. Each participant will then have five (5) playing cards making a poker hand. A participant can **discard up to two (2) cards** and purchase **replacement cards** at a cost of **\$5.00 per card**. This transaction can only occur **once**. The participant with the **best poker hand will win a prize**.
